

Rock Table

Designer	Jean Marie Massaud
Year	2014-2023

The iconic Rock Table, with its fluid and elegant silhouette, fits with great personality into a variety of outdoor settings, whether residential or public, such as gardens, terraces, and patios. Its slim top, available in rounded shape or square 80x80 cm variant, gives a sense of visual lightness to the table, while the sturdy base gives stability to the entire structure. The finishes, available in natural cement, anthracite, and stone chip cement, are inspired by nature's colours, creating a relaxing and harmonious atmosphere with the surrounding environment.

Cement top

In white or anthracite UHPFRC cement (ultra-high performance, fibre reinforced cement), with high technical / structural characteristics. Thickness 11 mm.

Base

The bases are made of UHPFRC (ultra-high performance fibre-reinforced cement) with cutting-edge technical/structural properties. The finish and colour of the bases are achieved through in-mass pigmentation using a mixture of sand and natural elements, followed by slow maturation and drying of the piece. The joining tube and the flange under the tabletop are made of aluminium and are matt powder-coated.

Accessories

Protective rain cover in light grey colour, specifically for outdoor products, waterproof, made of 100% polyester, outside with acrylic coating, inside with acrylic resin coating. Its characteristics are emphasised by its fully fungicidal Teflon finish. Each rain cover comes with a closable slip cover, so that it can be folded and kept correctly when not in use.

Stone chip cement top

In UHPFRC cement (ultra-high performance, fibre reinforced cement), with high technical / structural characteristics, coloured in mass using natural oxides, enhanced with a stone chip surface made up of Alpine rocks and stones (white and green stone chip top), or stone chip made up of stones from Tuscany (terracotta top). Thickness 11 mm.

Notes

Monochrome combinations:

- White version: base in natural cement, matt white tube and flange, top in white cement or white stone chip cement.
- Anthracite version: base in anthracite cement, matt graphite tube and flange, top in anthracite cement.
- Orange version: base in terracotta cement, matt orange tube and flange, terracotta stone chip cement top.
- Green version: base in green cement, matt green tube and flange, green stone chip cement top.

Rock Table finishes

Top

Cement

Anthracite cement X192
White cement X193

Stone chip cement

White stone chip cement X180
Green stone chip cement X178
Terracotta stone chip cement X179

Base

Natural cement X080
Anthracite cement X081
Green cement X181
Terracotta cement X182

Rock Table dimensions

Round tables with narrow base

Round tables with wide base

The height of H72 has a dimensional tolerance of \pm cm. Variations are to be considered, especially for tables with cement tops.

Oval tables with double base
