Anilina leather is intended for true connoisseurs, to those who can fully grasp the charm of genuine leather. Dyed in barrel without any kind of finishing, it is the closest to the concept of leather as nature has created it. The not forced drying, simply in the air, as it was done once, further embellishes its softness. All the natural characteristics, such as wrinkles, chiaroscuro effects and imperfections enhance its genuine beauty, making each hide

a unique piece.

The inner side of the shell is covered with leather. The outer side of the shell is covered with micro-perforated leather.

The shell of Flow collection covered with Anilina leather is fully covered with leather, micro-perforated on the outer side. The seams are always in contrast colour.

typology	Leather
composition	European bovine
tanning	Mineral
grain	Printed
dyeing	Penetrating
finishing	Pure aniline
surface	Full grain
thickness	1,1/1,3 mm
average size	≥ 5 mq
dry friction	≥ 100 cycles
damp friction	≥ 25 cycles
flexing	≥ 10.000 cycles
light fastness	≥ 3 blue scale, dark colours
heat ageing	≥ 3 gray scale
fire resistance	ISO 1021:1-2, BS 5852 source 0-1, IMO FTP8 A652, California TB 117-2013

washing information

Avoid cleaning with aggressive products. Keep away from direct sunlight and from direct heat. Avoid contact between light and dark colours even be. Regularly dust with a soft and dry cloth.

Legenda

	Hand wash. Delicate wash. Maximum temperature: 30°/40°. Use neutral soap without optical whiteners.
	Dry clean only. Do not wash in water. Treat with care when damp.
	Machine wash up to 40°.
	Dry cleaning with perchlorethylene, chlorinated solvents and mineral essences (perchloroethylene solvents, hydrocarbons, R113 and R11). The garment is washable with normal procedures but without the use of trichlorethylene (or trichlorethylene).
	Dry clean with tetrachloroethylene, monofluorotrichloromethane, trifluorochloroethane, hydrocarbons. Severely limit the amount of water added and/or the mechanical action and washing and drying temperatures. Do not dry clean at automatic coin-operated laundry facilities.
	Do not dry clean.
	Dry clean with hydrocarbons and trifluoro-trichloroethane.
	Do not tumble dry.
	Warm iron (max 110° C)
	Warm iron (max 150° C)
	Do not iron.
	Iron on the reverse side.
	Do not use chlorine bleach.
	Tumble dry.
	Wet-cleaning.

Information

Piece-dyed with a rich palette, ANIMA blends ultra-microfiber and matte chenille in a refined jacquard texture with a strong sense of identity. With a finishing treatment that adds a subtly faded look to the fabric's surface, there is a natural beauty to ANIMA that is elegant and captivating.

Use and maintenance

For correct washing, use a delicate neutral soap and water, and rinse thoroughly after washing, using only water. After cleaning, allow the fabric to dry correctly before folding it and putting it away, to avoid it getting mouldy.

Legenda

Rich in nuance like a Nordic landscape and suitable for any furnishing style. Keiga is a foundational fabric that works with everything, vintage or modern, angular or organic, art deco or light toned Scandi. Matt wool grounds the rich structure, enlivened by the contrast from the shiny yarns. Colours drawn from Norwegian nature include pine tree, silver grey, pink blush, charcoal, russet, bear brown, black and a signature glacier blue.

Leather is natural and its particular nature is underscored by wrinkles and scars that characterise the quality and origin. Leathers from the best breeders are carefully selected and only a small percentage are considered for purchase. The natural characteristics of leather do not allow us to guarantee the perfect correspondence between sample colours and the colours of available leathers.

typology	Leather
composition	European bovines
height	> 5 MQ
light fastness	3
thickness	1,1/1,3 mm
fire resistance	UNI EN 1021-1/2, BS 5852-0/1, IMO MED FTP8 A652
other information	Chemicals used for tanning, dyeing and finishing the leather do not contain substances which are hazardous for human health and the environment.
washing information	Nabuck and suede should be brushed periodically and cleaned with a vacuum cleaner. Spilt liquids should be soaked up immediately with a clean light-coloured cloth. A brush with soft bristles will help to restore the normal appearance of suede leather. Avoid exposure to direct sunlight. Avoid exposure to direct heat sources. Do not use aggressive cleaning products. Avoid contact between light and dark colours and also between different types of materials. Dust regularly with a soft, dry cloth.

Noah is made out of 100% recycled polyester. It doesn't use any new raw materials and doesn't generate any waste. Subtly textured warp and weft yarns merge into a pleasantly soft weave with a minimalist quality. Noah's timeless design is simple to take care of and comes in a carefully selected colour palette of Mediterranean hues. Some details are important. Noah is made where we live and, like any other hometown, it's a place we want to keep flourishing. That's why we weave with recycled materials, certify our fabrics under OEKOTEX and work from a zero-waste, ISO 14001 accredited facility. Noah is PFC-free too.

The excellent quality of nuvola® leather comes from a careful selection of European cattle. nuvola® has a smooth and soft grain. The hides are dyed with a passing-through process, in the same dye as the finish. The colour card includes an extraordinary series of colours, obtained from a single quality of leather. The wide range of fashionable colours characterises nuvola® leather for its excellent range of use, tied to the most demanding design-proposals.

Inner side of the shell covered with micro-perforated leather.
Outer side of the shell covered with leather.

The shell of the Flow collection covered with Nuvola leather is fully covered with leather, micro-perforated in the inner side. The seams are always in the same color.

Nature at its best. The grainy feel and organic look of the crepe fabric are the perfect "translation" of the tactile values of nature. In two or three colours, Parigi shows both subtle and intense hues, with a high volume structure, while the special woven binding lends it an air of sophistication.

Portofino is linen used mainly for upholstery and upholstery, offered in 16 different variants.

Thanks to the pumice stone treatment the surface of the fabric presents light veiled effect. Ideal for vintage upholstery. Furthermore, the stain-resistant treatment makes the Portofino ideal for the creation of finished products that must last over time while maintaining their characteristics unchanged.

Fabric made entirely of polypropylene yarn, Ten Stars Yarn, exclusive patented, dyed in mass with an air flow texturization able to give the fabric a look and a softness comparable to natural fibers.

It is used for the production of outdoor furniture and it is 100% recyclable and made in Italy.

Its composition guarantees permeability and breathability and make Ramiro fabric suitable for a prolonged use in outdoor environments without compromising its appearance, hand and color.

washing information

Ordinary dirt stains such as coffee, soft drinks, milk, beer, etc. can be removed by using a clean cloth or soft sponge and dabbing the stain with soapy water. Remove the soap solution by wiping the area with a cloth and clean water.
Do not use chlorine, alcohol, or solvents.
Warning: non-colourfast fabrics (such as jeans or similar items) can leave stubborn stains or spots on light coloured eco leather.
