

Lightness, poetry, technique.

MDF Italia's Salone features four brand new products, that are very different in terms of shape and function, but show the same strong identity: geometric lines and composition balance.

Qubit The Qubit project by Victor Vasilev – whose name pays tribute to the quantum theory and its unit of measure – is a new sign supplementing MDF Italia's collection. The geometry of this bookshelf system is similar to micro-modernist architecture, with a design made of full and empty spaces that can compose a sequence without the repetition of single modules being noticed.

Mirror Lines Mirror Lines is a collection of six mirrors designed by Irene Goldberg and Pitsou Kedem, that are inspired by the geometrical agricultural landscape. Within the frame painted either in black nickel or pearl nickel, next to the light reflected by the mirrors, decorative inserts in different materials stand out: Guatemala marble, matt white Carrara Marble, onyx or brass, the latter with an iridescent effect.

Metodo The perfect lines of Metodo low table, designed by Leonardo Talarico, immediately catch the eye. This product originates from meticulous research and a process of semantic reduction to the essential lines.

Two circles are placed on perpendicular planes to create the object – a sharp graphic sign in the space. It is made of iron sheet, in black nickel, shadow grey or matt white colours.

Minima Minima 3.0 system renews itself with many new features: now it can reach 4 meter height, integrate led lighting and the new finishings in silk nickel and shadow grey, in addition to sideboards, fixed wall elements and floor-ceiling bookcase.

Tense&Flow Finally, to celebrate the 10th anniversary of Tense and Flow, the collection was enriched with the new Tense Curve and Tense Outdoor, a chair in steel rod and a leather version. In Tense, Curve, the rectangular top dulls at the corners to welcome and encourage relationships among people. Tense Outdoor allows this icon to be experienced also en plain air. Flow collection now also includes the Flow Filo version in welded steel rods that mould volume by enhancing its timeless shape, and Flow Leather, padded and completely upholstered.

News MDF Italia also renewed other iconic products: Aïku, with a new stool, 20.Venti in the home version, Neil armchair in the new Twist variant, S Table and Rock table, with new finishes.
